OBJECTIVE

My goal is to progress in my career by seeking new and exciting opportunities where I can continue solving challenging problems while growing my skill set as a software engineer. I enjoy learning new technologies and staying up to date with current trends.

TECHNICAL SKILLS

Kotlin, Spring Boot, Kubernetes, Kafka, PostgreSQL, Python, Flask, Javascript, Nodejs, Git, Linux

SOFT SKILLS

Team Work, Communication, Problem Solving, Self-Starter, Remote Experience

EXPERIENCE

TaxRise, Remote — *Software Engineer*

September 2023 - PRESENT

- Collaborate on Salesforce Development. Working on Flows, Lightning Web Components, third party software integrations, etc.
- Implement general bug fixes and scripts using Python and Javascript

Figure, Remote — *Software Engineer*

March 2021 - July 2023

- Created a lead portal allowing for loan officer registration, creation of leads, and advancement of leads to loan applications.
- Built an admin portal to allow partners to manage all loan officers within their organization
- Designed, developed and maintained high-performing, scalable applications in Kotlin

NetApp, Remote — *Software Engineer*

June 2019 - August 2020

- Created a tool to collect and parse logs using regex looking for specific hardware failures, reducing turnaround time for customers by diagnosing hardware failures more efficiently.
- Devised and conducted a rollback test matrix to investigate compatibility issues between build versions and platform, enabling the platform team to be confident in performing rollbacks.
- Executed a kernel fuzzing software suite to test the OS and analyzed/reported any crashes.

EDUCATION

Wichita State University, Wichita KS — *BS in Computer Science*

August 2015 - May 2019
